Copyright and Permissions for Authorized Users

The Terms and Conditions of Use and Disclaimer notwithstanding, the conditions below apply to Authorized Users. "Authorized Users" denotes WTO Members, authorized Acceding countries, the WTO Secretariat and certain intergovernmental organizations authorized by the Committee on Market Access. Other intergovernmental organizations wishing to be granted access to restricted IDB and CTS data should contact the WTO Secretariat (idb@wto.org). Such requests shall be considered and approved by the Committee on Market Access.

Authorized intergovernmental organizations and authorized Acceding countries are required to agree to the following conditions on the use and publication of IDB and CTS information, as set forth in [Article 3, Annex 4 of G/MA/367 \(Dissemination Policy\)](#) prior to receiving access to approved restricted IDB and CTS data. Any breach of the conditions will result in the termination of their access to the restricted data:

1. Authorized users can freely use approved IDB and CTS information for internal purposes and in the context of market access-related technical assistance and capacity building. "Internal purposes" is understood to mean, in the case of Members and authorized Acceding countries, that they are free to use and distribute their own processed files as they wish. However, the files of other Members or authorized Acceding countries can only be used internally by government agencies. In the case of the WTO Secretariat and other organizations, "internal purposes" is understood to mean use within the organization.
2. All users may publish approved IDB and CTS information, or analyses derived from these databases, on the condition that:
 - a) WTO copyright of the original data is acknowledged and the specific data shown through users' own databases, online tools or publications, explicitly acknowledge the WTO as the source of the data;

- b) Any conclusions or analyses based on IDB and CTS data by users are accompanied by a disclaimer stating that they are the responsibility of the authors and not the opinion of the WTO;
 - c) The publication of restricted data by authorised users is not more detailed than the authorized level by the relevant Member(s). The publication of restricted data is subject to a prior authorization from the relevant Member(s) or Acceding country(ies), through the WTO Secretariat. In the case of WTO documents prepared by the WTO Secretariat at the request of Members, the Secretariat will inform the Committee on Market Access prior to publication.
3. Any user seeking to re-disseminate IDB or CTS data to third parties for purposes beyond publication or analyses derived from these databases shall first obtain the approval of the WTO Secretariat (ldb@wto.org) prior to such re-dissemination. In addition, the third party shall commit to respect the terms and conditions of [the Dissemination Policy](#).
 4. Any user seeking to mass-download IDB and CTS data for their own systems, or for redistribution through other databases or online systems, shall obtain the approval of the WTO Secretariat (ldb@wto.org) prior to the download. Prior to mass-downloading the data, the user shall commit to respecting the terms and conditions of [the Dissemination Policy](#). In addition, with the exception of WTO Members, the user shall commit to grant similar access to its own respective tariff and trade-related databases to the WTO Secretariat.
